Hydrobiologia

The International Journal on Limnology and Marine Sciences

Volume 483, 1 September 2002

Theme
Aquatic Telemetry

Guest Editors
Eva B. Thorstad, Ian A. Fleming & Tor Fredrik Næsje

Introduction
Eva B. Thorstad, Ian A. Fleming, Tor F. Næsje ix

Scientific committee, local organizing committee, secretariat, sponsors, commercial exhibitors x

List of participants xi

EFFECTS OF HUMAN IMPACTS & FISHERIES MANAGEMENT

Movement of radio-tagged anadromous sea lamprey during the spawning migration in the River Mondego (Portugal)
P.R. Almeida, B.R. Quintella, N.M. Dias 1–8

Outcomes of a pilot fish telemetry workshop for developing countries
E. Baras, V. Bénech, G. Marmulla 9–11

Use of radio telemetry and electrofishing to assess spawning by transplanted Atlantic salmon
Bjørn Ove Johnsen, Nils Arne Hvidsten 13–21

Migratory and route-seeking behaviour of ascending Atlantic salmon in the regulated River Tuloma
P. Karppinen, T.S. Mäkinen, J. Erkinaro, V.V. Kostin, R.V. Sadkovskij, A.I. Lupandin, M. Kaukoranta 23–30

Initial mortality of radio-tagged Atlantic salmon (*Salmo salar* L.) smolts following release downstream of a hydropower station
A. Koed, N. Jepsen, K. Aarestrup, C. Nielsen 31–37

Reactions in individual fish to strobe light. Field and aquarium experiments performed on whitefish (*Coregonus lavaretus*)
Sara Königson, Arne Fjälling, Sven-Gunnar Lunneryd 39–44

Use of an extensive radio receiver network to document Pacific lamprey (*Lampetra tridentata*) entrance efficiency at fishways in the Lower Columbia River, USA
Mary L. Moser, Alicia L. Matter, Lowell C. Stuehrenberg, Ted C. Bjornn 45–53

The impact of small physical obstacles on upstream movements of six species of fish
Michaël Ovidio, Jean-Claude Philippart 55–69

Use of telemetry in the development and application of biological criteria for habitat hydraulic modeling
D.A. Scruton, K.D. Clarke, L.M.N. Ollerhead, D. Perry, R.S. McKinley, K. Alfredsen, A. Harby 71–82

Use of telemetry and hydraulic modeling to evaluate and improve fish guidance efficiency at a louver and bypass system for downstream-migrating Atlantic salmon *(Salmo salar)* smolts and kelts
D.A. Scruton, R.S. McKinley, N. Kouwen, W. Eddy, R.K. Booth 83–94

MIGRATION & HABITAT UTILIZATION

Net ground speed of downstream migrating radio-tagged Atlantic salmon (*Salmo salar* L.) and brown trout (*Salmo trutta* L.) smolts in relation to environmental factors
Kim Aarestrup, Christian Nielsen, Anders Koed 95–102

Behaviour of tigerfish *Hydrocynus brevis* in the River Niger, Mali, as revealed by simultaneous telemetry of activity and swimming depth
E. Baras, B. Togola, B. Sicard, V. Bénech 103–110

Winter movements and activity of signal crayfish *Pacifastacus leniusculus* in an upland river, determined by radio telemetry
Damian H. Bubb, Martyn C. Lucas, Timothy J. Thom 111–119

Activity patterns of juvenile Atlantic cod (*Gadus morhua)* in Buckley Cove, Newfoundland
D. Cote, L.M.N. Ollerhead, R.S. Gregory, D.A. Scruton, R.S. McKinley 121–127

Vertical distribution and movements of brown bullhead (*Ameiurus nebulosus* Lesueur 1819) in Motuoapa Bay, southern Lake Taupo, New Zealand
M. Dedual 129–135

Integration of acoustic telemetry and GIS to identify potential spawning areas for lake trout (*Salvelinus namaycush*)
L.S. Flavelle, M.S. Ridgway, T.A. Middel, R.S. McKinley 137–146

Swimming patterns and behaviour of upriver-migrating adult pink (*Oncorhynchus gorbuscha*) and sockeye (*O. nerka*) salmon as assessed by EMG telemetry in the Fraser River, British Columbia, Canada
Scott G. Hinch, Emily M. Standen, Michael C. Healey, Anthony P. Farrell 147–160

Diel activity pattern of juvenile Atlantic salmon (*Salmo salar*) in early and late winter
M.J. Hiscock, D.A. Scruton, J.A. Brown, C.J. Pennell 161–165

The use of winter refuges by roach tagged with miniature radio transmitters
N. Jepsen, S. Berg 167–173

Migratory behaviour of adult pikeperch (*Stizostedion lucioperca*) in a lowland river
A. Koed, K. Balleby, P. Mejlhede 175–184

Habitat utilisation by pike *Esox lucius* L. during winter floods in a southern English chalk river
J.E.G. Masters, J.S. Welton, W.R.C. Beaumont, K.H. Hodder, A.C. Pinder, R.E. Gozlan, M. Ladle 185–191

Multi-torsking: simultaneous measurements of cod behaviour show differences between North Sea and Irish Sea stocks
David Righton, Julian Metcalfe 193–200

The dispersal patterns and behaviour of North Sea cod (*Gadus morhua*) studied using electronic data storage tags
K. Turner, D. Righton, J. D. Metcalfe 201–208

Quantifying the activity and movement of perch in a temperate lake by integrating acoustic telemetry and a geographic information system
L. Zamora, R. Moreno-Amich 209–218

METHODOLOGY AND NEW TECHNOLOGY

A simple activity monitoring radio tag for fish
W.R.C. Beaumont, B. Cresswell, K.H. Hodder, J.E.G. Masters, J.S. Welton 219–224

The potential use of PIT telemetry for identifying and tracking crayfish in their natural environment
Damian H. Bubb, Martyn C. Lucas, Timothy J. Thom, Philip Rycroft 225–230

The effects of surgically-implanted dummy radio transmitters on the behaviour of wild Atlantic salmon smolts
K.B. Connors, D. Scruton, J.A. Brown, R.S. McKinley 231–237

Surgical implantation of telemetry transmitters in fish: how much have we learned?
Niels Jepsen, Anders Koed, Eva B. Thorstad, Etienne Baras 239–248

A wireless communication system for determining site fidelity of juvenile dusky groupers *Epinephelus marginatus* (Lowe, 1834) using coded acoustic transmitters
G. Lembo, M.T. Spedicato, F. Økland, P. Carbonara, I.A. Fleming, R.S. McKinley, E.B. Thorstad, M. Sisak, S. Ragonese 249–257

Effect of position-fixing interval on estimated swimming speed and movement pattern of fish tracked with a stationary positioning system
Svein Løkkeborg, Anders Fernö, Terje Jørgensen 259–264

The combined use of acoustic tracking and echosounding to investigate the movement and distribution of common bream (*Abramis brama*) in the River Trent, England
J. Lyons, M. C. Lucas 265–273

Tracking acoustic transmitters by code division multiple access (CDMA)-based telemetry
G. Niezgoda, M. Benfield, M. Sisak, P. Anson 275–286

Taking the bait: *in situ* voluntary ingestion of acoustic transmitters by Atlantic cod (*Gadus morhua*)
Paul D. Winger, Barry R. McCallum, Stephen J. Walsh, Joseph A. Brown 287–292
